

“The future begins today”

Altice and Numericable welcome the unanimous decision by the Vivendi Supervisory Board.

The merger of SFR and Numericable opens the way to the creation of a French champion in Very High Speed Broadband and in the convergence of fixed and mobile networks.

Paris – 6th April 2014: Altice (Euronext: ATC) and Numericable Group (Euronext : NUM) welcome the unanimous decision by Vivendi’s Supervisory Board in favor of the offer by Altice/Numericable. This offer relates to the industrial project which will provide the greatest growth prospects and create the most value for employees, shareholders, clients and for the entire French telecommunications sector.

Patrick Drahi, founder and Chairman of the Altice group, parent company to Numericable, said: *“Our industrial project is ambitious and growth-oriented. By bringing together SFR and Numericable we will create the French champion in very high speed broadband and in the convergence of fixed and mobile networks. This is a trend throughout the sector, borne out across Europe and around the world. Our project, which is founded upon perfectly complementary networks and skillsets, will generate strong growth, which in turn will create jobs and stimulate investment. The future begins today.”*

The two groups, which have agreed a new reciprocal exclusivity agreement, will now consult their employee representatives and initiate procedures to obtain the necessary authorizations from the appropriate administrative authorities.

Vivendi has accepted our offer on the basis of the following criteria:

- The quality of our industrial project, which is based on very high speed broadband, fixed/mobile convergence, perfectly complementary networks, and the development of *Quadruple Play*. It is consistent with the French government’s “France Tres Haut Debit” plan, regarding which we have undertaken firm commitments;
- Job preservation: our project is also based on complementary of skills and guarantees job creation over the long-term, notably because of the investments entailed. We have also made formal commitments to guarantee jobs within the framework of the merger;
- Minimal competition risks, as per the opinion of all the experts consulted by Vivendi on the subject;
- The overall valuation for Vivendi, with a balance between cash received upfront and a stock participation allowing it to benefit from future upside.

.../...

Under the terms of the agreement, of which the details are laid out in the appendix, Vivendi will receive €13.5 billion in cash and 20% of the combined SFR - Numericable Group as well as a potential earn-out of €750 million. Vivendi will also at a later stage have the possibility of selling its 20% stake according to set terms.

The transaction values SFR at 6.5x 2014E EBITDA pre-synergies and 5.0x 2014E post synergies¹.

Given the agreement reached on April 5th (to be implemented prior to the fulfillment of the acquisition of SFR by Numericable Group) on the acquisition by Altice of the 21.32% stake in Numericable Group owned by Carlyle Cable Investment SC (an affiliate of The Carlyle Group) and the 13.27% stake in Numericable Group owned CCI (F3) S.a.r.l (an affiliate of Cinven), in total a 34.6% stake in Numericable Group (cf.detailed terms of this acquisition in the press release issued today), Altice will hold ultimately 60% of the new entity, with the final 20% as the free-float.

The new SFR-Numericable group will remain headquartered in France and listed on the Paris stock exchange.

¹ Assuming SFR 2014E EBITDA of €2.4 Bn as per latest brokers consensus

| Appendix | Selected Altice / Numericable Offer |
|--|---|
| Cash at closing | €13.5bn |

About Altice

We are a multinational cable and telecommunications company with presence in Western Europe (comprising France, Belgium, Luxembourg, Portugal and Switzerland), Israel, the Dominican Republic and the French Overseas Territories (currently comprising the French Caribbean and the Indian Ocean regions). We provide cable based services (high quality pay television, fast broadband Internet and fixed line telephony) and, in certain countries, mobile telephony services to residential and corporate customers.

Altice [ATC] is listed on Nyse Euronext Amsterdam, ISIN LU1014539529.

About Numericable Group

Numericable Group is the sole major cable operator in France. It operates using a very high speed fiber network infrastructure, serving three segments: B2C, B2B and wholesale. The group benefits from highly advanced technology and relies on a powerful infrastructure which operates as one network serving each of its three segments. Numericable is currently the market leader of the nascent very-high-speed broadband market in France, with a market share of 68%. In its B2C segment, the group operates under the Numericable brand name and offers customers a wide range of products and services including pay TV, high-speed and very-high-speed broadband Internet access, and fixed-line and mobile telephony. In its B2B segment, the group operates under the Completel brand name, as the first largest alternative operator in terms of FTTO (Fiber To The Office) networks.

Numericable Group [NUM] is listed on Nyse Euronext Paris, ISIN FR0011594233.
